

NWO CHAINS 2021

7 & 8 DECEMBER

VELDHOVEN & ONLINE

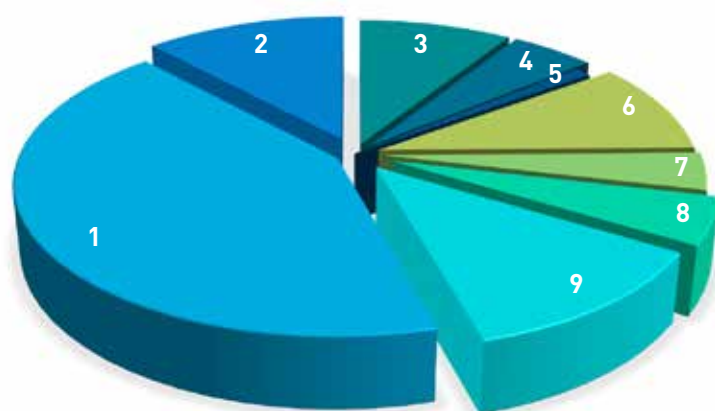

NWO CHAINS is the largest annual Dutch chemistry conference. It is the event where chemists from science and industry come together. PhD students, postdocs, professors and R&D scientists. Every year more than 1000 participants take part in this conference.
Two full days dedicated to chemistry.

BECOME A SPONSOR

- Put your company in the spotlight @ your own booth at the NWO CHAINS venue and/or show-case your company on the online platform.
- Meet the talents of the future that will drive the innovation of your company by connecting via speed dates and posting job opportunities at the vacancy wall.
- Find new customers for your high-end analytical instruments, devices and products.
- Meet world-class scientists for future collaborations.
- And much more...

DO YOU WANT TO TEAM UP @ NWO CHAINS?

During the Teaming up with Industry session, we will discuss the developments in the field of chemistry based on several discussion topics. The session will take place on Monday 6 December and provides the ideal moment to connect with others in the field, to discuss your work and to develop productive private-public collaborations between academia and industry partners! Furthermore, it offers possibilities to translate fundamental knowledge from the field of chemistry into practical applications.
